Attached is Form PTO-1449 listing the enclosed documents. These references were cited in a European Search Report dated December 12, 2002 in a related European application, which is the European counterpart to U.S. Patent No. 6,249,986, which is related to the subject U.S. application. A copy of the Search Report is also enclosed. U.S. Patent No. 2,809,142 listed on the Search Report is not enclosed since it was previously cited and considered by the Examiner in the October 11, 2001 Information Disclosure Statement.

French document FR 1322906A, which is cited in the Search Report, is not in the English language and an English language abstract is not readily available. For purposes of providing a concise explanation of the relevance of the French document per 37 C.F.R. § 1.98, the French document FR 1322906A is listed as providing "technological background" with respect to the European counterpart of U.S. Patent No. 6,249,986, which is related to the subject U.S. application.

MURRAY - USSN 09/973,955

This Information Disclosure Statement is intended to be in full compliance with the rules, but should the Examiner find any part of its required content to have been omitted, prompt notice to that effect is earnestly solicited, along with additional time under Rule 97(f), to enable Applicants to comply fully.

The Rule 17(p) Official Fee required by Rule 97(c) should be charged to Deposit Account No. 03-3975 under Order No. 81427/283374. This form is being submitted in duplicate for that purpose.
